INTRODUCTION

THE PURPOSE OF THIS STAMP COLLECTING WEBSITE IS TO PROVIDE GENERAL INFORMATION FOR VISITORS THAT MAY BE INTERESTED IN COLLECTING STAMPS AND TO PROVIDE THE SPECIALIZED INFORMATION NEEDS OF MORE ADVANCED STAMP COLLECTORS AND PHILATELISTS.

Postage stamps not only represent the development of letter mail systems over the last two centuries, but they also reflect the full range of history, art, and culture, from the beginnings of our global civilization. It is my love of history, as well as my love of philately, that drove me to collect stamps (about 60 years ago) and to create this website (almost 10 years ago).

The focus of most of the collecting categories in this website is the classical (1840-1900) and early modern (1901 to about 1935) philately of Europe and North America. In the beginning, I had envisioned a worldwide philatelic site, but it quickly became evident that composing and maintaining a site of that scope, for all the countries that have existed since 1840, was far beyond the capabilities of a single person.
